Here are some more details from Superego:

Bosco Collection: nature inspired ceramics

All designed by the famous Italian designer Andrea Branzi.

Bosco collection continues the domestic architectures concept, started with the preceding series Enzimi and Portali.

Fascinated by Ikebana Japanese floreal discipline, Branzi creates domestic laris made to expose flowers, silent altars destined to the celebration of secular cults.

Bosco series emphasize the natural inspiration: sprigs, trunks, tree fragments realized in ceramics almost assume an animist value, like they were our domestic deities.
