## INTERIOR INSPIRATIONS

### RHODES RUG

by Ralph Lauren Home

Celebrating '30 Years of Iconic Design for the Home', Ralph Lauren has certainly had presence over London's Design Week. The rug featured below has a mesmerising pattern which has undoubtedly been inspired by Turkish designs, toned down to create a Mediterranean feel. £800, 105-109 Fulham Road, SW3, 020 7535 4600; [ralphlaurenhome.com](http://ralphlaurenhome.com)

### RACKET CHAIR

2013 by The Campana Brothers

Brazilian brothers Fernando and Humberto lead the way as the most cutting-edge designers from the emerging Brazilian market. 'Circles' chair from their latest collection is fun, with handicraft and experimentation equally at the forefront. POA, Made of brass tubes and woven nylon. Courtesy of Friedman Benda, USA. ### TABLE LAMP

by Pietro Chiesa 1938 for Fontana Arte

Originally housed in a building by Italian architect Mollino in 1939, this surreal lamp with a sculpted hand is one of extraordinary design by Pietro Chiesa. Combining modernity with outstanding technical ability, this is definitely one to look out for at the fair. POA, Made of wood, plaster, mirrored glass and nickelled brass. ### JAR TABLE 2004 by Eric Schmitt

Contemporary French designer Eric Schmitt aims to promote themes of enigma and intrigue through his pieces, whilst ensuring they retain their functionality. The initial

impression we got of this table is that it was solely a work of design art with a playful form, yes? Not quite! Look closer and you will see how remarkably usable it is. What genius! POA, Edition of 8 in patinated bronze with marble top. Courtesy of Jean-Jacques Dutko, France. PAD London.
