

10 Art Festivals Worth Traveling For in 2015

Design Miami/Basel: June 16–21

Basel, Switzerland

This marketplace that runs concurrently with the renowned Art Basel fair enables collectors to complement their new investments with museum-quality furniture, lighting, and objets d'art. Forty-six galleries will display their design wares, including Demisch Danant's recreation of the iconic lobby of Boreal 9 in Paris (designed by Michel Boyer in 1972) and the European debut of new Byung Hoon Choi works at Friedman Benda.

Highlight: The Design At Large subsection, launched in 2014, presents large-scale works not suited for traditional gallery spaces. Hotelier and residential developer [Andre Balazs](#) curates this edition under the theme of 20th and 21st century architectural expression.
