### Design Miami 2016: in pictures

Two juxtaposing sets faced off at Friedman Benda's stand. In an installation titled *Asymmetrical Symmetry*, the duet of mise-en-scènes showcased the works of 11 international artists. *Photography: James Harris*

One side of Friedman Benda's booth explored abstract composition and eye-popping colour from the likes of the Campana Brothers and Christopher Shanck. *Photography: Lauren Coleman*

The second room took a more muted and organic turn, from Faye Toogood's 'Roly-Poly' dining chairs to Andrea Branzi lighting. *Photography: James Harris*
