

Core77's Condensed Guide to NYCxDesign 2017

10 must-do/see experiences during NY Design Week

BY [EMILY ENGLE](#) - MAY 08

NYCxDesign 2017 has just kicked off, and we're already overwhelmed by the exciting exhibitions, parties, presentations, trade shows, workshops and conferences to attend. We're guessing those of you attending NY Design week month are in the same boat, so we've put together a condensed guide of experiences to hone in on during NYCxDesign:

Friedman Benda's dna10

Alufoil (Shell Chair) by Christopher Schanck, 2016. Resin, aluminum, polystyrene.

Friedman Benda's 10th anniversary exhibition, dna10, is a process-focused reflection on contemporary design. The exhibit is made up of work from 21 diverse designers and their studios, including but not limited to Paul Cockledge, Christopher Schanck and Faye Toogood. Accompanying the pieces are drawings, sketches, videos and models, giving insight into the processes used by each designer.

Friedman Benda at 515 W 26th Street. May 4-June 10.

Engle, Emily. "Core77's Condensed Guide to NYCxDesign 2017," *Core77*, May 8, 2017.
