ADAM SILVERMAN X FRIEDMAN BENDA

CULTURED 25 | APR 2016 | BY KAT HERRIMAN

Silverman's *Untitled*, 2016

Los Angeles-based artist Adam Silverman touches down in New York for his first East Coast solo show. Opening May 5 at [Friedman Benda](#) gallery, "Ground Control" premieres a new body of work that includes a site-specific installation.

Comprising glazed sculptures propped on charred black pedestals, his wheel-thrown forms look like the mutated artifacts of a now extinct civilization—the perfect antidote to overwrought pottery.

Herriman, Kat. "Cultured 25." *Cultured*, April, 2016.
