Friedman Benda (New York) Showed Work By gt2P At Design Miami; Group Also Part Of "Airbnb/ Belong. Here. Now."

Friedman Benda (New York) showed a piece by the Chilean design group, gt2P, at Design Miami 2015. I could tell you about the process? But really? Just watch the videos below. The first is about the group and process and the second about function.

The group will also be part of the Airbnb/ Belong. Here. Now. during Miami Art Week. This monolithic structure functions as urban theater of an interactive sort. Belong there...NOW! It was designed by Design With Company. The space is over 5000 square feet and invites you to be part of the performance (follow @airbnb and share your experience with #BelongAnywhere)
